## INTRODUCTION

Since 1989, the Saskatchewan Aviation Council (SAC) has been improving aviation in Saskatchewan. What began as a small group of pilots has grown to include members from all facets of the aviation industry. Today, SAC is the province's single, most influential voice in aviation.

## WHAT SAC CAN DO FOR YOU

Our mandate is to promote and enhance aviation in Saskatchewan. We can help make things happen at your local airport. We can help make your business more profitable. We cut through the governments' red tape to make aviation better for all.

SAC works closely with the Air Transportation Association of Canada and is a strong ATAC member. Together we are able to make your voice heard in Saskatchewan and at the national level. SAC members serve on ATAC and Nav Canada committees. Your voice will be heard at the highest levels of government and industry.

When SAC speaks, authorities listen. We address your individual issues and concerns, then present them to the decision makers. Our membership numbers back us up. The voice of many is far more convincing and credible than that of just one.

## At present the Saskatchewan Aviation Council is:

- ✦ Encouraging SIIT (Saskatchewan Indian Institute of Technology) in their AME training initiative
- ✦ Working with Saskatchewan Ministry of Highways and Infrastructure to design, implement and administer the CAP (Community Airport Partnership) Program
- ✦ Partnering with Saskatchewan Ministry of Highways and Infrastructure and Western Economic Development to fund a study that should formulate an effective, efficient and sustainable air transportation strategy for the province
- ✦ Partnering with SIAST in the SAC/SIAST Commercial Ground School Diploma Program for commercial pilots
- ✦ Supporting the SAC Scholarships for aspiring AME and commercial pilot training
- ✦ Cooperating with the Northern Apprenticeship Program to implement an AME program in high schools in Northern Saskatchewan
- ✦ Partnering with Saskatchewan Ministry of Highways and Infrastructure to produce an up-to-date Air Facilities map
- ✦ Co-hosting the "Wings of Saskatchewan" Annual Conference and Trade Show with the Saskatchewan Aerial Applicators Association, to take advantage of synergies of both organizations, striving for the betterment of the aviation community as a whole

- ✦ Recognizing the rich history of Saskatchewan aviation through the Hall of Fame, Distinguished Airman and Industry Services awards
- ✦ ...and WORKING ON COUNTLESS OTHER IMPORTANT AVIATION ISSUES!!!!

## WHY WE NEED YOUR SUPPORT

Most often, the concerns and issues you have are shared by others in the aviation community. But unless you **step forward**, the issues so important to yourself and many of your colleagues may never be heard.

**We need members** from all segments of aviation. The broader the representation SAC has from the aviation community, the stronger and more credible we become.

What makes SAC unique among similar organizations is the high degree of involvement of its membership. SAC directors work with regular members on a variety of SAC committees and projects to make things happen! We are a volunteer-based organization with a mission: support our aviation industry, a major contributor to the social and economic life of Saskatchewan!

Although the aviation industry makes up more than 10% of Saskatchewan's total economy, **rising costs are a threat**. To ensure **aviation interests are promoted** and our **facilities are protected**, we need your support. Together we can **make things happen!**
